

## Boost the circular economy

Everyone is talking circular economy. FluidSolids' technology offers solutions to implement it – ecologically and economically.

## SILQ Talks Series

The good people from Steelcase launched a platform on material innovation and invited us to share insights on biocomposites - [see the video](#).

## Innovation at the nexus of science, technology and the arts

Starts Prize' focus is on people and projects that contribute to mastering the social, ecological and economic challenges - [we're honored!](#)
